More Synergies to be Realized through Integration

Efficiency Improvement for Synergies of Operations

Revenue Growth with More Diversified Portfolio

Best in Class

- Move products to the most efficient site -> 6 TWi products are under TT study at Zhunan site
- Reduce redundant operating costs -> Centralizing packaging of TWi products in Zhunan Site
- Remove low margin contributing (working capital consuming) products -> PAC to be terminated by the end of Mar'23
- Optimize R&D pipeline -> Pipeline selection meeting kicking off across different functions with support from sites
- Get SK pass USFDA audit + fine tune SK org to support CMO business -> Successful USFDA inspection and EIR received in Dec'22

Mid Term

- Accelerate portfolio expansion via M&A or partnership for Branded, OTC, and Biologics
- Diversify product portfolio

Short Term

- Synergize CDMO business by leveraging commercial sale networks
- Expand sales in Taiwan and China
- Invest in business systems to further enhance the operating/managerial efficiency

Long Term

- Create sustainable growth with well-diversified portfolio
 - Expand into more overseas markets with meaningful market presence
 - Become a truly global pharmaceutical company
